As children engage themselves in their day-to-day activities they are assessed formatively in Language, Numeracy, Physical - Gross and Motor, Personal, Social, Emotional, and Creative Domains.

A record of individual student attainment and progress is maintained through an on-going system of spaced oral and written activities and parents are regularly updated of the same.

Assessment, being an integral component of teaching and learning, include ongoing practice opportunities called 'Assessment for Learning' and promote key learning areas. These are intended to provide feedback with respect to how well the student is grasping the concepts being taught. Assessment tasks are graded and these scores are maintained for the purpose of term end

Feedback:

Midterm Review: A comprehensive academic review of each pupil is conducted and shared with parents and pupils towards the middle of each academic term. The review includes a feedback on Attitude to learning, Behaviour, Contribution to class, Homework and strategies for improvement

Open House: In addition to the two midterm reviews, parents attend formal Parent/Teacher meetings at the end of each term where they meet each subject teacher and discuss the child's progress and achievement.

A consolidated report for each child is sent to parents at the end of each term which shows grades for the term. This is also sent online to parents. These reports outline the child's progress within all areas of the curriculum, including their strengths and talents.

On a continuous basis parents get feedback via notebook correction, continuous evaluation and, where necessary, notes in the student's school diary.

If children are underperforming, teachers inform parents either by phone or through mail or a note in the diary. If a child is consistently underperforming, the Supervisor calls the parents for a discussion and follow up action. In certain cases, children may be advised to see the School Counsellor for assistance.

Follow-up Action: Students who are found to be in need of extra support are provided with remedial classes. Here the teachers are able to give individual attention to the students and their progress is monitored closely. Assessment, recording and reporting procedures are reviewed annually to ensure that they evolve and incorporate the best practices.
