Chairman's Message

It is with immense pleasure that I extend a hearty welcome to my dear students, parents, teachers and the non-teaching staff to the start of the new academic year 2022-23. It has been two long years since the start of the global pandemic and the hallways of the school have sorely missed the joyful and hilarious noises of our beloved students just enjoying a normal day in school. The global pandemic forced everyone to adapt to a 'new normal' as every household converted into a classroom.

The decision by the Ministry of Education to open our doors again is a welcome relief to us all and I am hopeful that we can slowly but surely build our way back towards the "business as usual" phase where things get back to normal for our students, teachers and parents. If there is one thing the COVID-19 pandemic has taught us it that we can never take our life for granted. Change is the only constant in life so the pandemic has heightened the need for all of us to cultivate an attitude towards continual learning and development.

The one silver lining of the past two years has been that due to the various lockdowns, curfews and quarantines, parents have been spending more time with their kids and only good can come out of it. My one request to you all is that we must continue to carve out some valuable time to spend with the family as we fall back into our pre-global pandemic routines. It is healthy for children to spend adequate time with their parents just as it is essential for them to spread their wings and reintegrate themselves back into the wider community of friends, classmates and mentors in the school and classrooms.

We, the Scholars Indian School family, seek the continuous partnership of the parents and the wider community as we strive to ensure that our students continue on their academic journey of self-discovery as they discover their own personal interests and talents.

As a school, we believe in

- Providing value based education
- Overall personality development of children
- Preparing students for the future & inculcating leadership skills
- Promoting a strong bond of communication between students, teachers and parents altogether

With this, I look forward to the upcoming academic year as we all as a family will strive together to achieve the goals we have set for ourselves and for our dear children.

Habib R. Mundol
Chairman

Principal Message

I am exceedingly privileged to welcome all the family members of Scholars Indian School to the new academic year 2022 – 2023. Let's hope the new academic year will gradually witness a comfortable retrieval of the pre-pandemic normality.

As expected, the repercussions of the pandemic continued to affect the academic establishments and the student community in the last academic year depending upon the rise and fall of the cases in the country. In spite of that, after a span of around one and half years of online teaching and learning, the students started getting in-house lessons in a restricted manner, giving teachers the added responsibility of attending students both online and offline simultaneously. We all heaved a sigh of relief when the Ministry's resolve to accommodate 100% students was announced. Then came the next variant as a bolt from the blue and several people started to feel under the weather.

Despite all these unprecedented challenges, Scholars Indian School remained a pillar of guiding force and rendered all sorts of assistance in regaining our students' confidence and self-esteem. Curricular activities were complemented with co-curricular activities such as 'Magnum Opus', a mini exhibition and 'Saurhutha Sandhya', a cultural fiesta hosted by the school's Malyalam Club. The resumption of a multitude of activities in various clubs provided a semblance of hectic schedule before the pandemic.

Thus the garden is slowly back with its fragrance and butterflies, longing to leave the days of pandemic for people to recollect in pensive mood. The gardeners, the management, the staff and the parents as well, let the butterflies explore the new world for its nectar of knowledge and wisdom and thus contribute to beautify this garden.

Let me welcome you all once again to this new academic year with a popular and wise quote.

CHALLENGE YOUR LIMITS”**

TIME MANAGEMENT

Manage your time to make the most of it.

As a Student you have the same amount of time as everyone else, but some people tend to complete more than others. The experts tell us that most of what we do is based on habit. By practicing some good “time management” habits you can begin to achieve all the things that you need and want to do.

Managing my time in the classroom

- Record all homework task on the day they are given.
- Record longer term tasks and the day they are due.
- Record assignment/test results in your planner for use in a record of achievement.
- Record all targets set and when they are completed.
- Ensure that your record full details of tasks/projects set.

Managing my time after school/at home

- Arrange your work in order of priority (use 1,2,3)
- Check off assignments/tasks when they have been completed.
- Organise your time into half-hour blocks.
- Take time to review work returned by your teacher.
- Commit yourself to revision schedule and stick to it.

Managing my time to complete my tasks

- Prepare a schedule which also includes regular leisure time.
- Take a short break or reward yourself after completing a task.
- Do not try to memorise all facts or details for a test at one time.
- Divide lengthy or difficult assignments/tasks into short manageable units.
- Wait a day before editing the rough draft of a written assignment.
- Transfer all unfinished tasks to a future date.
- Reflect regularly on your time use; set priorities for your work.

STRATEGIES FOR SUCCESS

A strategy involves using a plan of action to achieve a certain goal. To achieve success you will need to use a variety of strategies, such as those listed below:

Talk through these strategies with your parents or a teacher.

Strategy 1 – Listen carefully

- Concentrate on what is being said and ignore other noise.
- Ask questions if something is not clear.
- Listen for the meaning and ideas behind the words.

Strategy 2 – Take clear notes

- Write down only important facts and ideas.
- Use my own words rather than those of the teacher.
- Number the major points made into a sequence.

Strategy 3 – Choose the right place

- Try to work in the same quiet place.
- Ensure that my work place is well lit to avoid tiring my eyes.
- Keep work space tidy and use a firm chair.

Strategy 4 – Go further

- Make it a habit to do some homework every day.
- Identify and regularly use additional references, e.g. encyclopedia.
- Enroll at the local or central library and be aware of their facilities.

Strategy 5 – Revise effectively

- Be specific and stick rigidly to revision timetable.
- Revise in short bursts; stop when mind begins to wander.
- Try to reproduce the notes on paper rather than just reading books.

He who does not know his past cannot make the best of his present and future, for it is from the past that we learn.
